About us

GBEL was founded by a group of professionals having exhaustive technical & creative knowledge & commanding expertise in consultancy, fire, electrical, structural, testing & alignment field with a mission to provide sustainable business growth for its clients through the development & implementation of innovative marketing strategies.

We provide training, safety project execution, testing, calibration & facilitation services. We work synergetic with our clients to consummate the best possible outcome. Our intention is to earn the summit of reputation by providing best quality cost effective & technologically superior solution. Above all, we always try to appreciate your trust & always care about your opinion.

Mission

GBEL's mission is to ensure best fire safety solution within a reasonable price for people assets/projects. Of course, our first consideration is our valued clients.

Vision

GBEL has already passed its twenty years glorious time. As an engineering firm in future we want to do more engineering work with innovative ideas.

Message from Managing Director

Hello sir! We warmly welcome you to the boundary of GBEL's. In a nice day of 1998 with the help of Almighty we started our journey & since then we are trying to ensure better fire safety as well as security for our loving motherland Bangladesh.

Being a developing country fire related accident was a regular news of Bangladesh since 2000. For ensuring safety of people's lives & assets as well as government projects we established GBI (Green Bengal International) on 1998. Due to competition GBI had changed its name as EMS (Electro Mechanical Services). Then we established Green Bengal Engineering Ltd. In 2009. Now we are doing our tasks with the name of EMS & GBEL

"Security Beyond Your Expectation" the slogan we deserve. We always look for superlative solution of your problem. In addition, GBEL is trying to reduce unemployment in Bangladesh. Students & Innovative guys come here to build a better carrier.

We hope you will be with us. We look forward to being at your service to your needs.

Mahmudur Rahman
Managing Director
